

Weather station Data logger WS5000

Specifications	
➔	4.3" TFT Color display with touch screen
➔	RS485 communication interfaces for Sensor Interface
➔	One USB port for data Downloading
➔	One Ethernet port (optional)
➔	High quality color display
➔	Front Panel mounting with IP66 rating
➔	CE, UL Class I Div 2, RoHS
➔	High quality color display
➔	Front Panel mounting with IP66 rating
➔	Supply 24vdc

## Communication

Ethernet port :Fully Compliant with IEEE 802.3/802.3u Standards

Modbus TCP /IP for interface with scada

RS485 : To interface to weather Sensors with Modbus protocol

## Datalogging

Memory : 20MB

## USB port

USB port for downloading the recorded data using USB pen Drive
